Introducing... a NEW Generation of Hand Cleaner!

Bear Paw™

Clean with Confidence

Bear Paw Hand Cleaner is a non-toxic, non-hazardous and petroleum free hand cleaner that **REALLY** works. Even though it's tough enough for industrial use, it's also gentle enough to keep by the kitchen sink.

Bear Paw Hand Cleaner is water activated, so it not only cleans your hands but your sinks and drains as well, helping to prevent clogging and greasy build up, a common side effect of petroleum and solvent based cleaners.

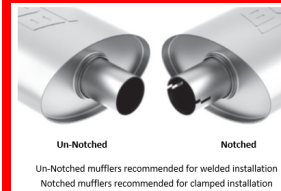

Bear Paw Hand Cleaners deep cleaning action removes dirt, grease, grime, paint, ink, tar, adhesives, varnish and virtually everything else from hard working hands.

Bear Paw Hand Cleaner is used by the automotive, airline, marine, railroad, printing, mining and jewelry industries among many others. It is also used at home by people who work in their garages, gardens and on DIY projects. It's even safe enough for children.
